

## Casey's Announces Third Quarter Results

March 11, 2024

ANKENY, Iowa--(BUSINESS WIRE)-- Casey's General Stores, Inc. ("Casey's" or the "Company") (Nasdaq: CASY) one of the leading convenience store chains in the United States, today announced financial results for the three and nine months ended January 31, 2024.

### Third Quarter Key Highlights

- Diluted EPS of \$2.33, down 13% from the same period a year ago. Net income was \$87 million, down 13%, and EBITDA<sup>1</sup> was \$218 million, down 2%, from the same period a year ago. In the prior year, net income, EBITDA and diluted EPS benefited from a one-time operating expense reduction of approximately \$15 million, or \$0.31 a share, from the resolution of a legal matter.
- Inside same-store sales increased 4.1% compared to prior year, and 9.9% on a two-year stack basis, with an inside margin of 41.3%. Total inside gross profit increased 11.3% to \$501.5 million compared to the prior year.
- Same-store fuel gallons were down 0.4% compared to prior year with a fuel margin of 37.3 cents per gallon. Total fuel gross profit decreased 2.0% to \$257.2 million compared to the prior year.
- Same-store operating expenses excluding credit card fees were up 2.5%, favorably impacted by a 1% reduction in same-store labor hours.

"Casey's delivered another solid quarter highlighted by inside gross profit growth," said Darren Rebelez, Chairman, President and CEO. "Inside same-store sales were driven by prepared food and dispensed beverage, with whole pies and hot sandwiches performing exceptionally well. Our fuel team navigated a rising cost environment and delivered nearly flat gallon volume and a 37.3 cents per gallon fuel margin. The operations team performed exceptionally well this quarter integrating multiple acquisitions, reducing same-store labor hours while growing sales and driving positive guest satisfaction scores."

### Earnings

	Three Months Ended January 31,		Nine Months Ended January 31,	
	2024	2023	2024	2023
Net income (in thousands)	\$ 86,933	\$ 100,112	\$ 414,952	\$ 390,599
Diluted earnings per share	\$ 2.33	\$ 2.67	\$ 11.09	\$ 10.42
EBITDA (in thousands)	\$ 217,615	\$ 221,727	\$ 840,372	\$ 786,441

For the quarter, net income, diluted EPS, and EBITDA were down compared to the same period a year ago primarily due to a strong fuel margin comparison in the prior year, lapping the one-time operating expense benefit noted above, and higher operating expenses due to operating 167 additional stores. This was partially offset by higher profitability inside the store.

<sup>1</sup> EBITDA is reconciled to net income below.

### Inside

	Three Months Ended January 31,		Nine Months Ended January 31,	
	2024	2023	2024	2023
Inside sales (in thousands)	\$ 1,214,959	\$ 1,109,223	\$ 3,931,619	\$ 3,644,277
Inside same-store sales	4.1%	5.6%	4.1%	6.6%
Grocery and general merchandise same-store sales	2.8%	5.8%	3.3%	6.0%
Prepared food and dispensed beverage same-store sales	7.5%	5.0%	6.2%	7.9%
Inside gross profit (in thousands)	\$ 501,511	\$ 450,572	\$ 1,611,209	\$ 1,459,307
Inside margin	41.3%	40.6%	41.0%	40.0%
Grocery and general merchandise margin	33.9%	34.0%	34.0%	33.7%
Prepared food and dispensed beverage margin	59.6%	57.3%	58.9%	56.5%

Total inside sales were up 9.5% for the quarter driven by strong performance in the prepared food and dispensed beverage category, including whole pizza pies, hot sandwiches, and dispensed beverages as well as non-alcoholic and alcoholic beverages in the grocery and general merchandise category. Inside margin was up 70 basis points compared to the same quarter a year ago, primarily due to softening of prepared food and dispensed beverage ingredient costs as well as modest retail price adjustments.

## **Fuel**<sup>2</sup>

	Three Months Ended January 31,		Nine Months Ended January 31,	
	2024	2023	2024	2023
Fuel gallons sold (in thousands)	689,251	644,940	2,133,680	2,036,450
Same-store gallons sold	(0.4)%	(0.5)%	—%	(0.9)%
Fuel gross profit (in thousands)	\$ 257,246	\$ 262,573	\$ 863,059	\$ 855,167
Fuel margin (cents per gallon, excluding credit card fees)	37.3 ¢	40.7 ¢	40.4 ¢	42.0 ¢

For the quarter, total fuel gallons sold increased 6.9% compared to the prior year primarily due to the store count increase, while same-store gallons were nearly flat versus the prior year. The Company's total fuel gross profit was down 2.0% versus the prior year. The Company sold \$3.4 million in renewable fuel credits (RINs) in the third quarter, an increase of \$0.5 million from the same quarter in the prior year.

## **Operating Expenses**

	Three Months Ended January 31,		Nine Months Ended January 31,	
	2024	2023	2024	2023
Operating expenses (in thousands)	\$ 568,908	\$ 515,735	\$ 1,709,466	\$ 1,598,213
Credit card fees (in thousands)	\$ 51,977	\$ 54,032	\$ 175,879	\$ 181,727
Same-store operating expenses excluding credit card fees	2.5%	4.6%	2.5%	2.8%

Operating expenses increased approximately 10% during the third quarter. Approximately 3% of the increase is due to lapping a \$15 million one-time benefit to operating expenses last year from the resolution of a legal matter. Operating 167 more stores than prior year accounted for approximately 6% of the increase. Total same-store employee expense contributed to approximately 1% of the increase, as the increases in labor rates were partially offset by a reduction in same-store labor hours.

<sup>2</sup> Fuel category does not include wholesale fuel activity, which is included in Other.

## RECONCILIATION OF NET INCOME TO EBITDA AND ADJUSTED EBITDA

We define EBITDA as net income before net interest expense, income taxes, depreciation and amortization. Adjusted EBITDA further adjusts EBITDA by excluding the gain or loss on disposal of assets as well as impairment charges. Neither EBITDA nor Adjusted EBITDA are considered GAAP measures, and should not be considered as a substitute for net income, cash flows from operating activities or other income or cash flow statement data. These measures have limitations as analytical tools, and should not be considered in isolation or as substitutes for analysis of our results as reported under GAAP. We strongly encourage investors to review our financial statements and publicly filed reports in their entirety and not to rely on any single financial measure.

We believe EBITDA and Adjusted EBITDA are useful to investors in evaluating our operating performance because securities analysts and other interested parties use such calculations as a measure of financial performance and debt service capabilities, and they are regularly used by the Company for internal purposes including our capital budgeting process, evaluating acquisition targets, assessing performance, and awarding incentive compensation.

Because non-GAAP financial measures are not standardized, EBITDA and Adjusted EBITDA, as defined by us, may not be comparable to similarly titled measures reported by other companies. It therefore may not be possible to compare our use of these non-GAAP financial measures with those used by other companies.

The following table contains a reconciliation of net income to EBITDA and Adjusted EBITDA for the three and nine months ended January 31, 2024 and 2023:
